

New Source Review newspaper advertisements for construction permit applications, May 19, 2005. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: May 17, May 18, or May 19, 2005. Public notices are generally published every two weeks. The previous publication of public notices was May 3 – 5, 2005.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Bert-CO Industries dba Bert-CO Graphics with a mailing address of 1855 N. Glendale Boulevard, Los Angeles, CA 90026. They seek to obtain an air contaminant permit (Division identification number: 28-0096-01/58208) for construction of a Printing Operation at 260 Bennett Drive, Pulaski, TN 38478. This proposed operation would consist of a 7-color sheet-fed lithographic printing press, a UV/IR dryer, and associated equipment and solvents used in printing operations. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Smith is the assigned Division person.

For the Giles County “Pulaski Citizen”--published once on or before Thursday, May 19, 2005.

FIRST APPLICANT

The first applicant is Petosky Plastics, Inc. with a mailing address of 5725 Commerce Boulevard, Morristown, TN 37814. They seek to obtain an air contaminant permit (Division identification number: 32-0173-11/58057) for construction of Blown Film Extrusion Line located at 5725 Commerce Boulevard, Morristown, TN 37814. This proposed operation would consist of a blown film extrusion line, including two (2) in-line Bellmark printers and two inkjet printers. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. V. Murrell is the assigned Division person.

SECOND APPLICANT

The second applicant is Tri Cities Concrete with a mailing address of 721 Main Street, Sneedville, TN 37869. They seek to obtain an air contaminant permit (Division identification number: 34-0013-01/58055) for a Concrete Batch Plant located at the same address. This existing operation consists of a concrete batch plant, silos, and

associated equipment used to produce concrete ready mix. A baghouse is used for pollution control. The requested modification is to update permitted emissions. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. D. Martin is the assigned Division person.

For the Hamblen County "Citizen Tribune"--published once on or before Thursday, May 19, 2005.

The applicant is Ford Construction Company with a mailing address of P.O. Box 527, Dyersburg, TN 38025. They seek to obtain an air contaminant permit (Division identification number: 49-0034-01/58192) for modification of an Asphalt Plant located on Highway 51, Ripley, TN 38063. This existing operation consists of a rotary dryer, elevator, hot screens, hot mix bins, asphalt batch mixer, hot mix asphalt storage, truck load-out, aggregate bins, conveyors, aggregate storage piles, and associated equipment used to process and ship asphalt. This source uses wet fan control for particulate emissions. The requested modification is to update the existing permit to reflect the State's current operating requirements for asphalt plants. This would decrease total air contaminant emissions, however, carbon monoxide would increase due to the application of updated emission factors. There would be no physical construction. Mr. Robert Benjamin is the assigned Division person.

For the "Lauderdale County Enterprise"--published once on or before Thursday, May 19, 2005.

The applicant is Bowater Newsprint with a mailing address of 5020 Highway 11, Calhoun, TN 37309. They seek to obtain an air contaminant permit (Division identification number: 54-0012-41/58130) for modification of a Fluidized Bed Multi-Fuel Boiler located at the same address. An electrostatic precipitator is used for emission control. The requested modification is to allow the burning of wood residuals from composite wood products manufacturing facilities in the boiler. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. H. Flores is the assigned Division person.

For the McMinn County "Daily Post-Athenian"--published once on or before Thursday, May 19, 2005.

The applicant is Liberty Building Systems with a mailing address of P.O. Box 806, Selmer, TN 38375-0806. They seek to obtain an air contaminant permit (Division identification number: 55-0086-01/57874) for modification of a Surface Coating Operation located at 335 Tennessee Avenue, Selmer, TN 38375. The proposed modification is to increase consumption of surface coating and solvent materials. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulates air contaminants are emitted from this source. Mr. Jim A. Attar is the assigned Division person.

For the McNairy County "Independent-Appeal" published once on or before Thursday, May 19, 2005.

The applicant is Ford Construction Company with a mailing address of P.O. Box 527, Dyersburg, TN 38025. They seek to obtain an air contaminant permit (Division identification number: 66-0116-01/58188) for modification of an Asphalt Plant located at 2679 Section Lane Road, Union City, TN 38261. This existing operation consists of a dryer, elevator, hot screens, hot mix bins, asphalt batch mixer, hot mix asphalt storage, truck load-out, aggregate bins, conveyors, aggregate storage piles, and associated equipment used to process and ship asphalt. This source uses a baghouse for control of particulate emissions. The requested modification is to update the existing permit to reflect the State's current operating requirements for asphalt plants. This would decrease total air contaminant emissions, however, carbon monoxide would increase due to the

application of updated emission factors. There would be no physical construction. Mr. Robert Benjamin is the assigned Division person.

For the Obion County "Union City Daily Messenger"--published once on or before Thursday, May 19, 2005.

The applicant is Tri Cities Concrete with a mailing address of 906 East Main Street, Kingsport, TN 37662. They seek to obtain an air contaminant permit (Division identification number: 82-0225-01/58056) for a Concrete Batch Plant at the same address. This existing operation consists of a concrete batch plant, silos, and associated equipment used to produce concrete ready mix. A baghouse is used for pollution control. The requested modification is to update permitted emissions. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. D. Martin is the assigned Division person.

For the Sullivan County "Kingsport Times-News"--published once on or before Thursday, May 19, 2005.

FIRST APPLICANT

The first applicant is Tri Star Energy, LLC with a mailing address of 1740 Ed Temple Boulevard, Nashville, TN 37208. They seek to obtain an air contaminant permit (Division identification number: 83-0242-01/58039) for operation of a Gasoline Dispensing Facility - 7207 Daily's located at 343 East Main Street, Hendersonville, TN 37075. This existing operation consists of one (1) 20,000-gallon gasoline tank, two (2) 10,000-gallon gasoline tanks, and 31 gasoline-dispensing nozzles. Stage I and Stage II vapor recovery equipment are used for gasoline emission control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. G. Gatlin is the assigned Division person.

SECOND APPLICANT

The second applicant is Tri Star Energy, LLC with a mailing address of 1740 Ed Temple Boulevard, Nashville, TN 37208. They seek to obtain an air contaminant permit (Division identification number: 83-0351-01/58040) for operation of a Gasoline Dispensing Facility - 4605 Hendersonville Shell (2205) located at 897 West Main Street, Hendersonville, TN 37075. This existing operation consists of two (2) 12,000-gallon gasoline tanks, one (1) 8,000-gallon gasoline tank, and 10 gasoline-dispensing nozzles. Stage I and Stage II vapor recovery equipment are used for gasoline emission control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. G. Gatlin is the assigned Division person.

THIRD APPLICANT

The third applicant is Tri Star Energy, LLC with a mailing address of 1740 Ed Temple Boulevard, Nashville, TN 37208. They seek to obtain an air contaminant permit (Division identification number: 83-0244-01/58041) for operation of a Gasoline Dispensing Facility - 4112 Jim's Market & Deli located at 511 East Main Street, Gallatin, TN 37066. This existing operation consists of one (1) 15,000-gallon gasoline tank, one (1) 8,200-gallon gasoline tank, one (1) 7,300-gallon gasoline tank, and 27 gasoline-dispensing nozzles. Stage I and Stage II vapor recovery equipment are used for gasoline emission control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. G. Gatlin is the assigned Division person.

For the Sumner County "News-Examiner"--published once on or before Thursday, May 19, 2005.

The applicant is Ford Construction Company with a mailing address of P.O. Box 527, Dyersburg, TN 38025. They seek to obtain an air contaminant permit (Division identification number: 92-0096-01/58191) for modification of an Asphalt Plant located on the Highway 22 Bypass, Dresden, TN 38225. This existing operation consists of an asphalt drum mixer, hot mix asphalt storage, truck load-out, aggregate bins, conveyors,

aggregate storage piles, and associated equipment used to process and ship asphalt. A baghouse is used for control of particulate emissions. The requested modification is to update the existing permit to reflect the State's current operating requirements for asphalt plants. This would decrease total air contaminant emissions, however, carbon monoxide would increase due to the application of updated emission factors. There would be no physical construction. Mr. Robert Benjamin is the assigned Division person.

For the "Weakley County Press"--published once on or before Thursday, May 19, 2005.

The applicant is Tri Star Energy, LLC with a mailing address of 1740 Ed Temple Boulevard, Nashville, TN 37208. They seek to obtain an air contaminant permit (Division identification number: 94-0251-01/58043) for operation of a Gasoline Dispensing Facility - 6606 Daily's located at 116 Franklin Road, Brentwood, TN 37027. This existing operation consists of two (2) 10,000-gallon gasoline tanks, one (1) 6,000-gallon gasoline tank, and 11 gasoline-dispensing nozzles. Stage I and Stage II vapor recovery equipment are used for gasoline emission control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. G. Gatlin is the assigned Division person.

For the "Tennessean-Williamson A.M."--published once on or before Thursday, May 19, 2005.

FIRST APPLICANT

The first applicant is Bill Shutes with a mailing address of 9000 Sparta Pike, Watertown, TN 37184. He seeks to obtain an air contaminant permit (Division identification number: 95-0280-01/57847) to construct a Gasoline Dispensing Facility - Three Forks Market at 9000 Sparta Pike, Watertown, TN 37184. This proposed operation would consist of one (1) 15,000/5,000-gallon double compartment gasoline tank and six (6) gasoline-dispensing nozzles with Stage I and Stage II vapor recovery equipment used for gasoline emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. G. Gatlin is the assigned Division person.

SECOND APPLICANT

The second applicant is Tri Star Energy, LLC with a mailing address of 1740 Ed Temple Boulevard, Nashville, TN 37208. They seek to obtain an air contaminant permit (Division identification number: 95-0145-01/58042) for operation of a Gasoline Dispensing Facility - 6637 Daily's located at 88 Mt. Juliet Road, Mt. Juliet, TN 37122. This existing operation consists of two (2) 15,000-gallon gasoline tanks and 28 gasoline-dispensing nozzles. Stage I and Stage II vapor recovery equipment are used for gasoline emission control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. G. Gatlin is the assigned Division person.

THIRD APPLICANT

The third applicant is Ritchie Bros. Auctioneers (America) Inc. with a mailing address of 3901 Faulkner Drive, Lincoln, NE 68506. They seek to obtain an air contaminant permits for construction of air contaminant sources at 748 Leeville Road, Lebanon, TN 37090, as follows:

(1) Surface Coating Operation (Division identification number: 95-0282-01/58184). This proposed operation would consist of one spray paint booth, two natural gas-fired air make up units, and associated equipment used to coat heavy equipment and machinery. Exhaust filters would be used as pollution control equipment. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Reynolds is the assigned Division person.

(2) Abrasive Blasting Operation (Division identification number: 95-0282-02/58185). This proposed operation would consist of one abrasive blasting booth and associated equipment used to blast heavy equipment and machinery with abrasive material. A baghouse would be used as pollution control equipment. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Reynolds is the assigned Division person.
